

“The whole concept of learning and teaching is different at Karelia UAS. I was impressed by your methods and approach to help students to gain real working life competence.”

Karelia PedaCamp HIGH-LEVEL EXPERTISE IN EDUCATION

Karelia PedaCamp is a programme conducted by pedagogical experts of Karelia University of Applied Sciences (Karelia UAS). It provides educational institutions a great opportunity and high-level expertise to improve and develop their pedagogical know-how, methods and tools both in theory and practice.

Through the programme world widely known high-level Finnish pedagogical expertise, approaches, solutions and best practices can be applied to any other educational organisation. PedaCamp combines efficient learning and enjoyable experiences; it offers not only great learning scheme but also possibilities to gain unforgettable intercultural experiences.

Karelia PedaCamp – HIGH-LEVEL EXPERTISE IN EDUCATION

Karelia PedaCamp offers in-service teacher and educational expert training programme. It helps the participating organisations to create high-quality educational programmes, develop pedagogical expertise and teacher competences, respond to the competition in the educational markets as well as raise their prestige and public image.

What?

Through Karelia PedaCamp the trainees will learn about

- » educational contexts and applied pedagogical approaches
- » competence based and working life relevant curriculum development
- » interactive web-based learning environments
- » participatory teaching and learning methods
- » networks for iterative teaching and research collaboration
- » industry involvement
- » quality and education management
- » expertise in diversity and inclusion management
- » professional development opportunities and great experiences

To whom?

Karelia PedaCamp is planned for teachers, directors, principals, supervisors and quality experts of higher educational institutions.

How?

Karelia PedaCamp is flexible and the implementation is modified uniquely following the client's exact needs. The key content, methods, length, trainers and timing are negotiable within the PedaCamp scheme.

The training premises are flexible as well. The programme is offered in Joensuu, Finland, including cultural experiences embedded into the programme delivery. However, the trainers are also able to provide their services on-site of the client. Part of the programme may be delivered virtually according to client needs.
