Customer service, changes 7.-30.6.2021
In 7.-30.6., customer service is serving remotely.
If you need to pick up your library card, please contact tel. 050 311 9545 to make an appointment. (You can also send WhatsApp messages). Phone hours: Mon-Fri 10-14.

You can return the borrowed books by using library's automated book return machine (outside the library) even when library is closed. The book return machine is located on the right from Tikkarinne Campus' main entrance, along the downhill walkway (**map**).

Tuudo

Tuudo mobile application has been introduced this spring and the library is in Tuudo as well. In Tuudo, you can turn on an electronic library card, check your own loans and requests and see library's opening hours in the next few days. You can also contact us via chat in Tuudo. Both students and staff can take Tuudo in their use.

Database tips

New! JBI Complete database provides materials and tools designed to assist in the clinical decision-making process in nursing and health care and to support best practice.

Also, remember the following ebook databases: **Safari** and **Ebook Central**.
Both have ebooks of multiple subject areas. We recommend these databases for your studies and finding source materials!

Tips for the summer

You can use our e-resources as usual during our library's summer closure (1.7. - 1.8.). In **Karelia-Finna**, you can find ebooks, ejournals and databases.

Other Joensuu area's libraries, **Vaarakirjastot** and **UEF Library**, are open during summer. Check their opening hours from their webpages.
NB. Apply UEF Library's library card online before visiting the library.

Books and e-books

Bryan Greetham - **How to write your literature review**

Red Globe Press 2021

This guide takes students step-by-step through the process of writing a literature review, and equips them with practical strategies to help them navigate each stage. Each bite-sized chapter focuses on a specific aspect of the process, from generating ideas and pinning down the research problem through to searching for sources, citing references and planning, writing and editing the review. Chapters feature examples and exercises to help students apply ideas to their own work. Whether your students are writing a stand-alone review or one that is part of a dissertation or thesis, this guide is their essential companion.

Arjun Panesar - **Machine Learning and AI for Healthcare: Big Data for Improved Health Outcomes**

Apress 2020

The book covers new topics in managing the complexities of massive data, and provides examples of complex machine learning models. Updated case studies from global healthcare providers showcase the use of big data and AI in the fight against chronic and novel diseases, including COVID-19. The ethical implications of digital healthcare, analytics, and the future of AI in population health management are explored. You will learn how to create a machine learning model, evaluate its performance, and operationalize its outcomes within your organization. Case studies from leading healthcare providers cover scaling global digital services. Techniques are presented to evaluate the efficacy, suitability, and efficiency of AI machine learning applications through case studies and best practice, including the Internet of Things. You will understand how machine learning can be used to develop health intelligence - with the aim of improving patient health, population health, and facilitating significant care-payer cost savings.
